TRAVEL PLAN

1. Day – Thursday, May 14, 2026. – Arrival in Rimini. Dinner. Overnight stay.

Rimini is one of the largest Italian cities on the coast of the Adriatic Sea. This famous resort and center of tourism and night life is completely subordinated to tourists and in addition to long sandy beaches, it also has an old central part full of history and beautiful architecture. Along the sandy beach of La Marina there are over 1000 hotels and theme parks, as well as pizzerias, restaurants and bars where you can enjoy the charms of Italian cuisine.

However, all this is a pale description of what Rimini actually is – and it is the city where Caesar, after crossing the Rubicon river, famously said – "The die is cast", the city of Federico Fellini's films, the city of art with a tradition of more than 1000 years, a city that Fellini himself called pure emotion.

2. Day – Friday May 15, 2026. – Breakfast. Optional trip to San Marino. Dinner. Overnight stay.

The small **Republic of San Marino**, with a size of only 61 square kilometers, is the third smallest country in Europe, right after the Vatican and Monaco. The country is completely surrounded by Italy, so many people think that it is part of this country. San Marino is also the oldest republic in the world, founded in 301 by a stonemason named Marinus. The fairytale city of San Marino, the capital of the republic of the same name, is located on top of Mount Titan. Surrounded by walls, with preserved stone houses, paved steep streets, 3 towers dating back to the 11th century and a wonderful view, it is a place that is really worth visiting.

Rocca Guaita (or First Tower) is the most famous of San Marino's three impressive fortresses located on the peaks of Mount Titano. It was built in the 10th century directly on top of a rock without a foundation, and looks like it's straight out of a tale of medieval knights and dragons. Due to its precarious position, it has been reconstructed several times over the centuries. Historically it is a place where the population of San Marino found refuge against sieges – parts of the tower were previously used as a prison until 1970.

Castello Cesta, better known as the **second castle**, was built at the end of the 11th century. Now there is a city museum of archaic weapons, a large collection of ancient and medieval weapons and combat uniforms. This tower is a true paradise for those who are still enchanted by knights and soldiers. **Montale is the smallest of the three towers** and dates from the end of the 13th century. Despite its size, apparently for defensive purposes, it had a very strategic purpose, and it is also the best picnic spot. It is encased in stone walls and has a prison cell that is eight meters deep.

3. Day – Saturday May 16, 2026. – Breakfast. The day scheduled for the competition. Dinner. Overnight stay.

4. Day – Sunday May 17, 2026. – Breakfast. Departure from hotel.
